Section 1
Identification of the Substance and of the Supplier

1.1 Product Identifier

<table>
<thead>
<tr>
<th>Product Name/Identification:</th>
<th>Extendospheres © (all grades)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Synonyms:</td>
<td>Hollow ceramic spheres, ceramic microspheres, cenospheres</td>
</tr>
</tbody>
</table>

1.2 Relevant Identified Uses of the Substance or Mixture and Uses Advices Against

<table>
<thead>
<tr>
<th>Recommend Uses:</th>
<th>Low density, heat/fire resistant filler</th>
</tr>
</thead>
<tbody>
<tr>
<td>Uses Advised Against:</td>
<td>None known</td>
</tr>
</tbody>
</table>

1.3 Details of the Supplier of the SDS

<table>
<thead>
<tr>
<th>Manufacturer/Supplier:</th>
<th>Sphere One, Inc.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Street Address:</td>
<td>601 Cumberland, Ste. C</td>
</tr>
<tr>
<td>City, State and Zip Code:</td>
<td>Chattanooga, TN  37404</td>
</tr>
<tr>
<td>Customer Service Telephone:</td>
<td>423.629.7160</td>
</tr>
<tr>
<td>E-mail Address:</td>
<td><a href="mailto:jstone@sphereone.net">jstone@sphereone.net</a></td>
</tr>
</tbody>
</table>

1.4 Emergency Telephone Number

<table>
<thead>
<tr>
<th>Emergency Phone Number:</th>
<th>1-800-424-9300 (ChemTrec)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hours Available:</td>
<td>24 hr 7 days/week</td>
</tr>
</tbody>
</table>

Section 2
Hazards Identification

2.1 Classification of the Substance

- GHS Classification according to Directive 67/548/EEC (DSD) and Regulation (EC) No1272/2008 (CLP)- Does not meet the criteria for hazardous classification.

- GHS Classification(s) according to OSHA Hazard Communication Standard (29 CFR 1910.1200):
  - STOT-SE Category 3
  - STOT-RE Category 2
2.2 Label Elements

<table>
<thead>
<tr>
<th>Labelling according to 29 CFR 1910.1200 Appendices A, B and C*</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Hazard Pictogram(s):</strong></td>
</tr>
<tr>
<td>![Warning Pictogram] ![Risk of Infection Pictogram]</td>
</tr>
<tr>
<td><strong>Signal word:</strong> Danger</td>
</tr>
<tr>
<td><strong>Hazard Statement(s):</strong></td>
</tr>
<tr>
<td>• May cause respiratory irritation.</td>
</tr>
<tr>
<td>• May cause damage to lungs after repeated/prolonged exposure via inhalation.</td>
</tr>
<tr>
<td><strong>Precautionary Statement(s):</strong></td>
</tr>
<tr>
<td>• Do not breathe dust.</td>
</tr>
<tr>
<td>• Use outdoors or in a well ventilated area.</td>
</tr>
<tr>
<td>• If inhaled: Remove to fresh air and keep comfortable for breathing.</td>
</tr>
<tr>
<td>• Get medical advice/attention if you feel unwell.</td>
</tr>
<tr>
<td>• Store in secure area.</td>
</tr>
<tr>
<td>• Dispose of product in accordance with local/national regulations.</td>
</tr>
</tbody>
</table>

*Extendospheres® and other coal combustion products (CCPs) are UVCB substances (substance of unknown or variable composition or biological material). The following elements may be present as oxides: Aluminum, calcium, iron, magnesium, nickel, phosphorus, potassium, silicon, sulfur, titanium, and vanadium. The exact composition of Extendospheres® is dependent on the fuel source and flue additives composed of a large number of constituents. The classification of the final substance is dependent on the presence of specific identified oxides as well as other trace elements.

2.3 Other Hazards

Listed Carcinogens:
- Respirable Crystalline Silica

IARC: [Yes]  NTP: [Yes]  OSHA: [No]  Other: [No]

### Section 4

#### First Aid Measures

4.1 **Description of First Aid Measures**

<table>
<thead>
<tr>
<th>Inhilation:</th>
<th>If product is inhaled and irritation of the nose or coughing occurs, remove person to fresh air. Get medical advice/attention if respiratory symptoms persist.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Skin Contact:</td>
<td>If skin exposure occurs, wash with soap and water.</td>
</tr>
<tr>
<td>Eye Contact:</td>
<td>If product gets into the eye, rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Seek medical attention/advice if irritation occurs or persists.</td>
</tr>
<tr>
<td>Ingestion:</td>
<td>No specific first aid measures are required.</td>
</tr>
</tbody>
</table>

4.2 **Most Important Health Effects, Both Acute and Delayed**

**Acute effects:** Direct exposure may cause respiratory irritation, eye irritation and skin irritation. The product dust can dry and irritate the skin and cause dermatitis and can irritate eyes and skin through mechanical abrasion.

**Chronic effects:** Chronic exposure may cause lung damage from repeated exposure. Chronic inhalation of dusts containing respirable crystalline silica may result in silicosis.

4.3 **Indication of Any Immediate Medical Attention and Special Treatment Needed**

Seek first aid or call a doctor or Poison Control Center if contact with eyes occurs and irritation remains after rinsing.

Preparation Date: May 19, 2015
Section 5
Firefighting Measures

5.1 Extinguishing Media

| Suitable Extinguishing Media: | Product is not flammable. Use extinguishing media appropriate for surrounding fire. |
| Unsuitable Extinguishing Media: | Not applicable, the product is not flammable. |

5.2 Special Hazards Arising From the Substance or Mixture

| Hazardous Combustion Products: | None known. |

5.3 Advice for Firefighters

| Special Protective Equipment and Precautions for Firefighters: | As with any fire, wear self-contained breathing apparatus (NIOSH approved or equivalent) and full protective gear. |

Section 6
Accidental Release Measures

6.1 Personal Precautions, Protective Equipment and Emergency Procedures

| Personal precautions/Protective Equipment: | See Section 8.3 Individual Protective Measures. For concentrations exceeding Occupational Exposure Levels (OELs), use a self-contained breathing apparatus (SCBA). |
| Emergency procedures: | Use scooping, water spraying/flushing/misting or ventilated vacuum cleaning systems to clean up spills. Do not use pressurized air. |

6.2 Environmental precautions

| Environmental precautions: | Prevent contamination of drains or waterways and dispose according to local and national regulations. |

6.3 Methods and Material for Containment and Cleaning Up

| Methods and materials for containment and cleaning up: | Do not use brooms or compressed air to clean surfaces. Use dust collection vacuum and extraction systems. Large spills of dry product should be removed by a vacuum system. Dampened material should be removed by mechanical means and recycled or disposed of according to local and national regulations. |

See Sections 8 and 13 for additional information on exposure controls and disposal.

Preparation Date: May 19, 2015
Section 7
Handling and Storage

7.1 Precautions for Safe Handling

Practice good housekeeping. Use adequate exhaust ventilation, dust collection and/or water mist to maintain airborne dust concentrations below permissible exposure limits (note: respirable crystalline silica dust may be in the air without a visible dust cloud).

Do not permit dust to collect on walls, floors, sills, ledges, machinery, or equipment. Maintain and test ventilation and dust collection equipment. In cases of insufficient ventilation, wear a NIOSH approved respirator for silica dust when handling or disposing dust from this product. Avoid contact with skin and eyes. Wash or vacuum clothing that has become dusty. Avoid eating, smoking, or drinking while handling the material.

7.2 Conditions for safe storage, including any incompatibilities

Minimize dust produced during loading and unloading.

8.2 Exposure Controls

8.2.1 Engineering Controls

Provide ventilation to maintain the ambient workplace atmosphere below the occupational exposure limit(s). Use general and local exhaust ventilation and dust collection systems as necessary to minimize exposure.

8.2.2 Personal Protective Equipment (PPE)

<table>
<thead>
<tr>
<th>Respiratory protection:</th>
<th>Wear a NIOSH approved particulate respirator if exposure to airborne particulates is unavoidable and where occupational exposure limits may be exceeded. If airborne exposures are anticipated to exceed applicable PELs or TLVs, a self-contained breathing apparatus or airline respirator is recommended.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Eye and face protection:</td>
<td>If eye contact is possible, wear protective glasses with side shields. Avoid contact lenses.</td>
</tr>
<tr>
<td>Hand and skin protection:</td>
<td>Wear gloves and protective clothing. Wash hands with soap and water after contact with material.</td>
</tr>
</tbody>
</table>

Preparation Date: May 19, 2015
Section 10
Stability and Reactivity

10.1 Reactivity:
The material is non-reactive.

10.2 Chemical stability:
The material is stable under normal use conditions.

10.3 Possibility of hazardous reactions:
The material is inert; polymerization will not occur.

10.4 Conditions to avoid:
Product can become airborne in moderate winds. Dry material should be stored in silos. Materials stored out of doors should be covered or maintained in a damp condition.

10.5 Incompatible materials:
None known.

10.6 Hazardous decomposition products:
None known.

Section 11
Toxicological Information

11.1 Information on Toxicological Effects

<table>
<thead>
<tr>
<th>Endpoint</th>
<th>Data</th>

<td>-------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Carcinogenicity</td>
<td>Not available. Respirable crystalline silica has been identified as a carcinogen by NTP and IARC.</td>
</tr>
<tr>
<td>Reproductive toxicity</td>
<td>An animal study with coal combustion product (CCP) has indicated some effects on male and female reproductive organs and parameters without a clear dose response while studies with other CCPs have not shown reproductive effects. Therefore, there is not enough evidence available to classify according to reproductive toxicity. No developmental toxicity has been observed in available animal studies.</td>
</tr>
<tr>
<td>Specific Target Organ Toxicity-Single Exposure STOT-SE</td>
<td>No specific target organ toxicity after a single exposure to the substance is expected; however, presence as a nuisance dust may result in respiratory irritation.</td>
</tr>
<tr>
<td>Specific Target Organ Toxicity-Repeated Exposure STOT-RE</td>
<td>NOAEC=4.2 mg/m³ dust; as no effects were observed at the highest dose tested during the 180 day inhalation study, it is not possible to assess the level at which toxicologically significant effects may occur.</td>
</tr>
<tr>
<td>Aspiration hazard</td>
<td>Not applicable based on product form.</td>
</tr>
</tbody>
</table>

### Section 12

**Ecological Information**

12.1 **Toxicity**

No data available on final product.

12.2 **Persistence and Degradability**

Not relevant for inorganic materials.

12.3 **Bioaccumulative Potential**

No data available.

12.4 **Mobility in Soil**

No data available.

12.5 **Results of PBT and vPvB Assessment**

No data available.
12.6 Other Adverse Effects

None known.

Section 13
Disposal Considerations

See Sections 7 and 8 above for safe handling and use, including appropriate hygienic practices. Dispose of all waste product and containers in accordance with federal, state and local regulations.
