1. Product Information

Product Name: EZ Thick  
Chemical Family: N/A  
Product Code: 729

2. Composition/Information on Ingredients

3. Health Hazards

Eye Contact: May cause irritation and swelling.  
Skin Contact: None known.  
Ingestion: May cause irritation or allergic reaction.  
Inhalation: May cause irritation and congestion.

4. First Aid Measures

Eyes: Flush eyes thoroughly with water for at least 15 minutes while holding eyelids open. Seek medical attention.  
Skin: Remove contaminated clothing. Wipe excess from skin and wash the affected area thoroughly with soap and water. Wash contaminated clothing thoroughly before reuse.  
Inhalation: Remove to fresh air, and provide oxygen or artificial respiration if needed. Obtain medical attention; symptoms can be delayed up to several hours.  
Ingestion: DO NOT induce vomiting. Give 1-2 cups of water or milk unless the person is drowsy, convulsing, or unconscious. Get medical attention.

5. Fire Fighting Measures

Flammable Properties: Burns like wood.  
Explosive Limits: Flash Point: N/A.  
Hazardous Decomposition Products: CO and NOx typical of wood smoke.  
Extinguishing Media and Fire Fighting Instructions: When sufficiently large quantities are present, firefighters should be equipped with full bunker gear, including a positive pressure, NIOSH approved, self-contained breathing apparatus. Extreme heat or water contamination may cause closed containers to explode.  
Extinguishing Media: Water, dry chemical, or appropriate foam.

6. Accidental Release Measures

Sweep up with broom and shovel and dispose of following all state, federal and local ordinances.

7. Handling and Storage

No special hazards.

8. Exposure Control and Personal Protection

Engineering/Ventilation Controls: Effective engineering controls should be used whenever possible to eliminate and/or reduce worker exposure to all respiratory hazards. General ventilation, local ventilation, or isolation may prove adequate to keep airborne concentrations below exposure limits.  
Respiratory Protection: If exposure limits are exceeded and local ventilation is unavailable, a supplied-air respirator or a self-contained breathing apparatus is required.  
Skin Protection: Optional.  
Eye Protection: Chemical Splash goggles or safety glasses with side shields should be worn as appropriate.

9. Stability and Reactivity

Chemical Stability: Stable under normal conditions and use.  
Conditions and Materials to Avoid: None except open flame.  
Hazardous Polymerization: Will not occur.

10. Physical and Chemical Properties

Appearance/Odor: White powder, odorless.  
Boiling Point: Not determined.  
Vapor Pressure (mm Hg): N/A.  
Vapor Density (air=1): N/A.  
Specific Gravity: 1.27-1.61.  
Solubility in Water: Insoluble.

11. Toxicological Information

None known.

12. Disposal Considerations

If uncontaminated, approved for disposal as a non-hazardous material in accordance with federal, state and local regulations. If contaminated, the user must assess the proper disposal for the material appropriate for the contamination.

13. Transportation Information and Regulatory Information

DOT/IATA Proper Shipping Name: Not Regulated.

14. Regulatory Information

TSCA: The chemical components of this product are included in the TSCA Chemical Substance Inventory, as required.  
SARA TITLE III: Section 313 - Toxic Chemicals: None.  
NFPA Hazards: Health - 0, Flammability - 0, Reactivity - 0.  
HMIS Hazards: Health - 0, Flammability - 0, Reactivity - 0.
