

MATERIAL SAFETY DATA SHEET

1. Product Information

Product Name: EZ Thick Chemical Family: N/A Product Code: 729

2. Composition/Information on Ingredients

Chemical Name	CAS Number	Percent	Exposure Limits	
			ACGIH TLV-TWA	OSHA PEL
Powdered Cellulose	9004-34-6	100%	10mg/m3	15 mg/m3
Total Dust Respirable				5 mg/m3

3. Health Hazards

Eye Contact: May cause irritation and swelling.
Ingestion: May cause irritation or allergic reaction

Skin Contact: None known
Other:

Inhalation: May cause irritation and congestion

4. First Aid Measures

Eyes: Flush eyes thoroughly with water for at least 15 minutes while holding eyelids open. Seek medical attention. **Skin:** Remove contaminated clothing. Wipe excess from skin and wash the affected area thoroughly with soap and water. Wash contaminated clothing thoroughly before reuse.

Inhalation: Remove to fresh air, and provide oxygen or artificial respiration if needed. Obtain medical attention; symptoms can be delayed up to several hours.
Ingestion: DO NOT induce vomiting. Give 1-2 cups of water or milk unless the person is drowsy, convulsing, or unconscious. Get medical attention.

5. Fire Fighting Measures

Flammable Properties: **Flash Point:** **Explosive Limits:** Burns like wood **Hazardous Decomposition Products:** CO and NO_x typical of wood smoke
Extinguishing Media and Fire Fighting Instructions: When sufficiently large quantities are present, firefighters should be equipped with full bunker gear, including a positive pressure, NIOSH approved, self-contained breathing apparatus. Extreme heat or water contamination may cause closed containers to explode.
Extinguishing Media: Water, dry chemical, or appropriate foam

6. Accidental Release Measures

Sweep up with broom and shovel and dispose of following all state, federal and local ordinances.

7. Handling and Storage

No special hazards

8. Exposure Control and Personal Protection

Engineering/Ventilation Controls: Effective engineering controls should be used whenever possible to eliminate and/or reduce worker exposure to all respiratory hazards. General ventilation, local ventilation, or isolation may prove adequate to keep airborne concentrations below exposure limits.

Respiratory Protection: If exposure limits are exceeded and local ventilation is unavailable, a supplied-air respirator or a self-contained breathing apparatus is required.
Skin Protection: Optional **Eye Protection:** Chemical Splash goggles or safety glasses with side shields should be worn as appropriate.

9. Stability and Reactivity

Chemical Stability: Stable under normal conditions and use.
Hazardous Polymerization: Will not occur.

Conditions and Materials to Avoid: None except open flame.

10. Physical and Chemical Properties

Appearance/Odor: White powder, odorless
Specific Gravity: 1.27-1.61
Boiling Point: Not determined
Solubility in Water: Insoluble
Vapor Pressure (mm Hg): N/A
Vapor Density (air=1):

11. Toxicological Information

None known

12. Disposal Considerations

If uncontaminated, approved for disposal as a non-hazardous material in accordance with federal, state and local regulations. If contaminated, the user must assess the proper disposal for the material appropriate for the contamination.

13. Transportation Information and Regulatory Information

DOT/IATA Proper Shipping Name: Not Regulated.

14. Regulatory Information

TSCA: The chemical components of this product are included in the TSCA Chemical Substance Inventory, as required. SARA TITLE III: Section 313 - Toxic Chemicals: None Section 311/312 - Hazard Categories: Fire Hazard: No Reactivity Hazard: No Sudden Release of Pressure Hazard: No
Immediate (Acute) Health Hazard: No Delayed (Chronic) Health Hazard: No. NFPA Hazards: Health - 0, Flammability - 0, Reactivity - 0 HMIS Hazards: Health - 0, Flammability - 0, Reactivity - 0
